1.0 INTRODUCTION

The new BetKing Virtual was launched April 2019 and is currently an addition to the existing Virtual King's League. BetKing Virtual now consists of two new leagues;

1. Kings Live League
2. Kings Liga

This objective of this manual is to help the product users (not restricted to agents and business partners), understand the products' main features and how it works. This document will be divided into the following sections;

- I. Product Overview
- II. How it works
- III. Product Benefits

NB: This product currently only available in shops.

2.0 PRODUCT OVERVIEW

This section gives a brief outline on the new products for easy identification and differentiation.

2.1 Product Descriptions

The new BetKing virtual comprises of two products.

Name: Kings' Live League
Theme: Dark Grey
Description: This is a soccer product with content based off English Leagues. The games are a collection of real-life clips of games played in the past.

Name: Kings' Liga
Theme: Yellow
Description: This is a virtual soccer product with content based off the Spanish La Liga. The games are virtual simulations

2.2 Product Features

This section covers all components and key features of the product.

Product Components

Each virtual league is made up of the following components.

1. **Cashier interface:** This is where the bets are placed from.
2. **Web viewer:** This is view-only and allows the players view odds and keep track of the outcome of the events. Data is required for this to be functional.
3. **Satellite:** This has the same function as the web viewer, however this requires a satellite frequency to work.

2.2.1 Game Features

The terminology below will help the user understand the elements that make up the product.

1. **Event:** An event is a single match fixture that forms part of a match set or game round.
2. **Game Week:** A game week consists of 10 events played at the same time. E.g, League 22145 - Week 2. League 22145 – Week 3. A week therefore consists of 10 events.
3. **Season:** 38 game weeks is equal to one (1) virtual league/season. A season is classified as a “League”. Once 38 rounds have been played, the league number changes. E.g League 22145 -Week 38 will usher in League 22146 – Week 1
4. **Live-in Play:** This is the page that is displayed on the web-viewer and satellite when a game round is in progress.
5. **Pre-amble / Odds Page:** The page is a ‘pre-amble’ to the actual live match. It displays the fixtures, markets, odds, jackpots, league table, head-to-head stats, league and week details.
6. **Game Round:** This is the sum total of all the facets that make up a game and is viewed from a user’s perspective. A round is equal to Pre-amble + Heartbeat + live-inplay + results pages. The total time on every game round is 5 mins.

2.2.2 Game Rules

- A full round is 5 mins
- The minimum stake is #100
- Minimum stake per combination is #20

- The Maximum winning has been increased to #1.5Million
- Settled Bets cannot be reprinted or cancelled

NB: When it shows “BETS ARE NOW CLOSED” it means another game is about to start (max of 3 mins to stake)

2.2.2 Cashier

This is an interactive interface where bets are placed.

2.2.3 Web Viewer

The web viewer is **not** interactive like the cashier interface but it displays information that guides the player through his virtual betting experience. The web viewer content is divided into four major parts;

- **Pre-Match:** Showing all fixtures, market options and odds
- **In-Play:** Shows the live scores as the matches are being played out
- **Results:** This shows the outcome on all key markets.
- **Jackpot:** This does not come up at all times but it provides information of the jackpot won so players can tell if they have a winning ticket or not.

2.2.3a Accessibility

The web viewer can be accessed in two different ways.

1. Direct Access through <https://vviewer.betking.com>
2. Log in through Admin as displayed below in Figure 2.4
