Predict the total number of goals scored by Away Goals Away Team Soccer team. 0 Soccer Away will not score goal. 1 Soccer Away will score 1 goal. 2 Soccer Away will score 2 goals. 3+ Soccer Away will score 3 or more goals.

> Predict the outcome of a match after the handicap spread has been applied to home team by adding (or subtracting if the value is negative) the number of goals in brackets after the match ends. Considering that value in brackets is always applied to goals scored by home team, negative value marks advantage of away team, while positive value marks advantage of home team. In the case of a whole goal handicap (value in brackets ends with ".00"), if the result is level after the handicap is taken into consideration, then all bets are void and stake refunded. By placing bet on value in brackets that represents quarter of one or more goals (value in brackets ends with ".25" or ".75"), the bet can be half won (half of the stake multiplied by the odds is won) or half lost (half of the stake will be refunded).
